

PENNY WAR for United Way

THE RULES

- 1) Each classroom will have their own jar or other collection container (teachers are encouraged to make their collection container a fun art project).
- 2) Pennies are golden in this event...tell your students to bring in as many as they can find.
- 3) All silver coins and green bills are evil...they send your total backwards.
 - a. For example...Suzy Q's class has a jar with \$100 in pennies in it and \$11 in silver coins - their grand total will be \$89, not \$111.
- 4) If a student brings in a silver coin or a green bill, have them put it in another class's jar, not their own.
- 5) The class from each building that collects the most money (in pennies) will get a treat day. The building that collects the most money (per capita) will get a treat day.
- 6) The Penny War should run for one 5-day week.
 - a. Please e-mail Heather the dates you will be running your War or your change drive.
- 7) Heather will take the change to the bank at the end of your war/drive, unless someone from your building volunteers to do so. Only one trip will be made, so plan containers accordingly. Remember to label all containers with their grade level if you are warring.
