

NHSACA Members,

The NHSACA is pleased to present to you a solution to the difficult and cumbersome process of tracking NCAA core course requirements.

The NHSACA has endorsed the Clearinghouse Calculator ([www.clearinghousecalculator.org](http://www.clearinghousecalculator.org)), an innovative, web-based service that truly provides a quick and easy solution to calculate core course GPA and better educate our young student-athletes, as well as their parents/guardians, about NCAA initial-eligibility guidelines.

The Clearinghouse Calculator provides all of your student-athletes, from freshmen to seniors, a road map to ensure they meet the core course NCAA eligibility standards and are tracking towards academic eligibility for the college of their choice.

The Clearinghouse Calculator empowers students and parents to manage the process themselves, or use it along with the guidance of a coach or counselor.

The Clearinghouse Calculator also provides coaches, counselors, players and parents **with** crucial information about recruiting rules, recruiting calendars, ACT/SAT test information, financial aid and much more.

We strongly encourage you to contact the Clearinghouse Calculator to learn more about this effective, time-saving tool.

The Clearinghouse Calculator can be reached at [info@clearinghousecalculator.org](mailto:info@clearinghousecalculator.org) or (515) 974-6542. Be sure to let them know you were referred by the NHSACA.

Sincerely,

Gelaine Orvik, **Executive Director**  
**National High School Athletic Coaches Association**
