

BIRTH CERTIFICATES

When a child enrolls in a West Fargo school for the first time, the parent (guardian or legal custodian) must present proof of identity of the child to the school within forty days of enrollment. "Proof of identity" means a certified copy of a birth certificate, a certified transcript, or similar student records from the previous school. It is also required that the parent request the appropriate school records for the child from the previous school attended by the child.

If a child's parent does not present the proof of identity within forty days of enrollment or if the school does not receive the school records of the child within sixty days of enrollment, the school, the school superintendent must notify the bureau and a local law enforcement authority that no proof of identity has been presented for the child.
