*Our current instructional models provide the ability for students to learn from home and staff to teach from home when weather conditions prohibit them from getting to school. Elementary students are tasked with taking their device home as assigned.*

*If school is cancelled due to inclement weather, the inclement weather schedule is in place for the elementary, middle, and high school levels. All synchronous sessions in Microsoft Teams are recorded for students who miss the session. Attendance is entered in PowerSchool based on synchronous attendance and/or work completion.*
