Lock POS Serving Line

Lock Point of Sale (POS) Serving Line is used to secure access to the POS Serving Line system. The cashier will need to re-enter their password to access the POS Serving Line again. It is recommended to lock the screen anytime the computer is unattended.

From the Transaction Ready screen:

1. Press the LOCK Icon located at the top of the screen. A screen saver displays
2. Touch the screen and the Login screen displays.
3. Type your password and press **Login**.
