

# ELEMENTARY SPECIALTY CLASSROOMS

COST: \$1.5 MILLION

## WHY MORE CLASSROOMS?

*Due to continued growth, specialty classrooms in several schools have been reassigned to general education classrooms, leaving music, art, gifted and talented, and health classes without designated learning spaces. In order to provide an equitable learning environment for elementary students across the district, these spaces must be added to the elementary schools where they are currently lacking.*

## COST DETAILS

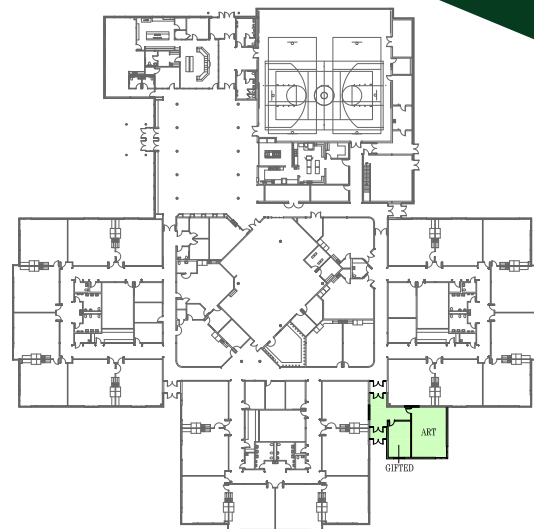

The total projected cost of the classroom additions is \$1.5 million, or around 1% of the total bond package cost.

Aurora Elementary School, Eastwood Elementary School, Freedom Elementary School, and Independence Elementary School will receive additional classrooms.

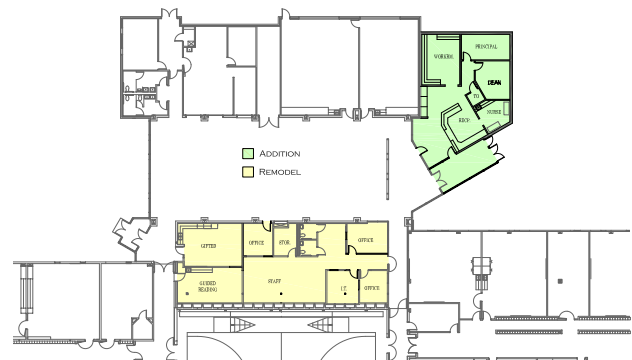

Of the estimated annual net tax impact of +\$15.80 for a \$100,000 home value, \$0.22 will be associated with the elementary classrooms project.

## EQUITY

Once these projects are complete, all WFPS elementary schools will have dedicated space for specialty classes such as gifted and talented, art, and music. These buildings have been utilizing alternative methods (teachers on a cart, in-class instruction, shared spaces, etc.) for providing these services, but each short term solution is negatively impacting the length and quality of students' education.
